

Rise: Lesson Types

Articulate Live Webinar Resources Updated 04/18/18

Notes:

- Image aspect ratio 1x1 or 16x9 are recommendations
-

Pre-built Lessons

Lesson Type	Image	Audio	Video	Notes
Video			X	
Labeled Graphic	16x9	X	X	
Process	16x9	X	X	Image zoom can't be turned off
Timeline	16x9	X	X	
Sorting				Text only
URL/Embed				Bring media in via URL or iframe
Quiz	16x9		X	No media on feedback

Block Lessons Text

Lesson Type	Settings	Image	Notes
Text blocks	Padding; color		17 pt; can right-click and format text
Statement A	Padding; color		17 pt; body text bold; can't unbold
Statement B	Padding; color		32 pt; heading text
Statement C	Padding; color		Pt not listed; heading text; filled with gray
Statement D	Padding; color		24 pt; body text; filled with gray
Note	Padding; color		15 pt; body text; filled with light theme color
Quote A	Padding; color; avatar	1x1	14 pt; statement = body; author name = heading; text will always be in quotes
Quote B	Padding; color; avatar	1x1	32 pt; statement = heading; author name = body (colored); can't recolor author name text
Quote C	Padding; color; avatar	1x1	14 pt; statement = body; author name = heading
Quote on Image	Padding; color; avatar Background image	1x1 Other	24 pt; statement = body; author name = heading; background image crops in different views
Quote Carousel (interactive)	Padding; color; avatar (per quote)	1x1	14 pt; statement = body; author name = heading; text will always be in quotes; carousel as tall as largest quote
Numbered List	Padding; color		17 pt; list items are added separately
Checkbox List (interactive)	Padding; color		17 pt; list items are added separately; checkbox can be connected to "continue" divider
Bullet List	Padding; color		17 pt; list items are added separately

Block Lessons Image

Lesson Type	Settings	Image	Notes
Image Centered	Padding; color; caption; zoom	16x9	Image scales
Image Full Width	Padding; color; caption	16x9	Image scales
Image & Text	Padding; color; caption; zoom Image position; image size	16x9*	Image scales; 16x9 is ideal at 50/50, but other aspect ratios work based on image size
Text on Image	Padding; color; opacity of background image; opacity color	16x9	32 pt heading text bold; background image crops in different views
Carousel (interactive)	Padding; color; caption; zoom	16x9	You can upload multiple images at once; images with different aspect ratios impact the carousel; it will be as tall as tallest image
Two Column Grid	Padding; color; caption; zoom	1x1, 16x9	Image shows as 1x1 (crops from middle); zoom shows entire image; upload multiple images at once
Three Column Grid	Padding; color; caption; zoom	1x1, 16x9	Image shows as 1x1 (crops from middle); zoom shows entire image; upload multiple images at once
Four Column Grid	Padding; color; caption; zoom	1x1, 16x9	Image shows as 1x1 (crops from middle); zoom shows entire image; upload multiple images at once

Notes:

- Image grids could be seen as large (2 column), medium (3 column), and small (4 column) since they don't change size based on number of images.
- Blocks that support multiple images allow batch upload of images

Block Lessons Multimedia

Lesson Type	Settings	Image	Audio	Video	Notes
Audio	Color, padding; caption		X		Upload or record audio; no audio editor
Video	Color, padding; caption; video size, allow fast forward		X	16x9	
Embed URL/iframe	Color, padding; caption; embed width, show border; show metadata				Heading and body text
Attachment	Color, padding;				Filled with gray; heading text
Code Snippet	Color, padding; caption				Just text; filled with gray

Notes:

- Name attachment file before uploading so it reads better

Block Lessons Interactive

Lesson Type	Settings	Image	Audio	Video	Notes
Accordion	Color; padding; image zoom; open & close accordion	16x9		16x9	Heading & body; can edit body text
Tabs	Color; padding; image zoom; open & close accordion	16x9		16x9	Heading & body; can edit body text
Flashcard Grid	Color; padding; text or image - front or back	1x1			
Flashcard Stack	Color; padding; text or image - front or back	1x1			
Button	Color; padding; name button, destination; button color				Label = heading; button = body
Button Stack	Color; padding; name button, destination; button color				Label = heading; button = body
Knowledge Check	Color; padding;	16x9		16x9	Question = body; answers = heading
Storyline	Color; padding; Storyline width				Block is filled with gray;
Continue	Color; padding; lock and set completion type; rename label				Filled with theme color; use with checklist
Divider	Color; padding;				Create a line
Numbered Divider	Color; padding;				Create a sequence
Spacer	Color; padding;				Adds empty space

Notes:

- Buttons can link to other lessons, web page, or exit the course (LMS only)
- Storyline files need to be published to Articulate 360; player settings are controlled in Storyline; can be tracked in LMS
