

## How Ready are Your Learners?

Use this survey to dig deeper into how prepared your learners are for multi-device e-learning. As you fill out the survey, you can draw on your own observations of how learners use their devices at work. You may also choose to ask a couple of learners about their experience. Here's how the survey works:

Take a look at the statements in the left-hand column of the table below. Go through each and mark the degree to which you agree with each of the statements. Go back and tally your responses: 1 point for each **Strongly Disagree**, 2 points for each **Disagree**, all the way up to 5 points for each **Strongly Agree**.

Once you have your total, check out the feedback table for custom recommendations based on your score and situation.
